

SOL Topic: "GarageBand"

Respect
Ambition
Resilience
Compassion

Learning Intentions:

This unit is designed for pupils to learn how to operate the music software programme "GarageBand" using the Music Department's Apple iMacs. Lesson by lesson pupils learn about different features that GarageBand is capable of doing. Pupils will be using the programmes inbuilt loops to experiment and finally create their own piece of music using the programme evidencing all the skills they have learnt as the unit has been delivered. GarageBand is an industry standard example of recording software which is used in recording studios all over the world.

Language for Learning/Glossary (Tier 3): Loops, genre, automation, structure, rondo form, panning, sound effects, fade in/out, dynamics, arrangement track, texture, plug-ins, master track.

How you will be assessed:

- Completed GarageBand Song on the iMacs.

Play & Perform	Improvise & Compose	Reading staff & other notations
Listening to Great Composers	Inter-related Dimensions of Music	Musical Contexts
